V1558S / V1558 / V1658
Automatic skinning machine

for **large**
fish fillets
with **rough**
skin

A compact machine to fine
or deeply skin your fish fillets

- ▶ Single or double lane machine
- ▶ Plug & Play
- ▶ Easy to clean
- ▶ Easy to move
- ▶ Industrial capacity

V1558 / V1558S / V1658
Automatic skinning machine

The V1558 series and the V1658 are compact single or double lane skinning machines designated to skin all types of large fillets with rush skin. The machines have 2 pressing rollers enabling to process 2 fillets at the same time for industrial needs. They can be provided with one pressing roller and can then be used as a single lane skinning machine. The skinning options range from silver to traditional to deep skinning of fillets.

Silver skinning

Traditional skinning

Deep skinning

Key features

1. Single and/or double lane machine
2. Skinning thickness easily adjustable with handwheel
3. Plug & Play: already configured and easy to operate
4. Easy to assemble/disassemble
5. Easy to clean: lift and remove the conveyor
6. Easy to move: machine on wheels
7. Conveyor mode: no need to move the machine when using the machine as a conveyor
8. Industrial capacity: up to 120 fillets/min
9. 100% stainless steel

2.

The handwheel on the machine allows the operator to change the skinning depth quickly and easily.

Options available

- Eco'o system: Fillet detection sensor to reduce water consumption
- Speed variator
- Central separator
- Possibility to customize integration to adapt to specific working environments
